Education

Indian Institute of Information Technology, Sonapat Nov 2022 – May 2026
Bachelor of Technology in Information Technology — **CGPA: 8.3 / 10**

- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, TCP/IP, Computer Networks, Software Development Life Cycle, **Object-Oriented Programming (OOP)**

Experience

Software Development Engineer (SDE) Freelancer — Xelron | Remote June 2026 – Present

- Built and curated **50+ benchmark datasets** for evaluating **Large Language Models (LLMs)** on **real-world financial reasoning** using multi-document company reports.
- Designed end-to-end evaluation pipelines by creating analyst-style prompts, **human-verified reference solutions**, grading rubrics, and **documented failure patterns** for objective model assessment.
- Analyzed model outputs to identify calculation errors, **reasoning failures**, **hallucinations**, and **document extraction issues**, improving evaluation quality and reproducibility.
- Collaborated within a structured **review workflow** using **Cursor**, Git, and standardized repositories to deliver **high-quality evaluation artifacts** for large-scale **AI benchmarking**.

Software Development Engineer (SDE) Intern — Xelron | Remote Feb 2026 – June 2026

- Reviewed **AI-generated** coding solutions to ensure accuracy by analyzing execution traces and outputs.
- Improved **AI evaluation quality** through **bug detection**, logic validation, and **prompt review**.

Projects

TravelPlan: AI-Powered Travel Management Platform | MERN, Redis, Socket.IO, JWT, RBAC, Docker, AWS S3, Gemini/OpenAI, Google Maps, OpenWeather [Live Demo](#)

- Developed a full-stack AI travel management platform with 40+ REST APIs supporting **AI itinerary generation**, **trip planning**, booking management, **expense tracking**, flight tracking, weather forecasting, Google Maps integration, document management, and **real-time notifications**.
- Built a scalable **MERN architecture** using **JWT authentication**, Role-Based Access Control (RBAC), **Socket.IO**, **Redis caching**, **BullMQ background jobs**, **MongoDB aggregation pipelines**, Clean Architecture, **pagination**, **SOLID principles**, advanced search, filtering, and **CSV/PDF export**.
- Integrated **10+ third-party APIs** and cloud services including **AWS S3**, **Google Maps**, Google Places, **Docker**, **OpenWeather**, Gemini/OpenAI, **Google Calendar**, Nodemailer, **Swagger/OpenAPI**, GitHub Actions, CI/CD, **automated testing**, monitoring, and **production deployment** on Render. and Vercel.

Technical Skills

Programming Languages: C++, Python, Java, JavaScript (ES6+), SQL
Development: React.js, Next.js, HTML, CSS, Tailwind CSS, Vite, Node.js, Express.js, **RESTful APIs**, Docker
Databases & Cloud: MongoDB, PostgreSQL, **MySQL**, Prisma, Redis, AWS (EC2, S3, IAM), Socket.IO
Tools: Git/GitHub, Linux, Cursor, CI/CD, Postman, Co-pilot, Vercel, Render, LLM Integrations, Claude

Achievements & Certifications

- National Semi-Finalist – Flipkart GRiD 7.0 & Unstop Talent Park 2025
- LeetCode: 1669 Rating — Global Rank 2945 in Biweekly contest 159 | 800+ Problems Solved
- CodeChef: 1553 Rating (2 Stars) — Global Rank 42 in Starters 189
- AWS Cloud Foundations Certified– Experience with EC2, IAM, S3, CloudFront. | [AWS Badge](#)
